We work hard each day to meet and surpass the needs of our customers that include high-profile corporate partners such as Handsbrands and several municipalities and universities. With capabilities that include consistent quick deliveries, climate controlled storage and fully automated order entry, we will earn your business! Our methods and practices have been tested by time and by our customers for over 25 years now.

Without exception, you must be totally satisfied with our products and services! Each order, no matter how large or how small goes through a proprietary 21-step order entry process to assure accuracy. We will maintain the same sense of urgency that you have for each order! Although this principle sounds simple, we have found that it is the exception rather than the rule today, and it has become the standard by which our customers measure and rate our performance.

The commitment, services and product line of *Diverse Forms & Products* are designed to compliment your hard work and efforts. All companies and organizations seeking the optimum quality in service and products will be totally satisfied. This is my guarantee to you for the privilege of doing business with you. Thank you very much for this opportunity!

Sincerely,
